crystal

GOLD *lighting*

Společnost Gold Crystal je pokračovatelem tradice produkce křišťálových výrobků v České republice známých již stovky let pod společným jménem Bohemia Crystal. Tato dlouhodobá tradice nás zavazuje neustupovat v otázkách kvality výrobků a jejich řemeslného zpracování.

Krása a ušlechtilost použitých materiálů dovoluje designerům navrhovat různorodé tvary a seznamovat tak širokou veřejnost s neuvěřitelnými možnostmi využití prostoru a hmoty. Jejich výtvory pak dosahují vysokých ocenění ze strany zákazníků z mnohých států celého světa, kam jsou tyto jedinečné výrobky distribuovány.

Společnost Gold Crystal se po celou dobu své existence snaží maximálně vyjít vstříc všem mnohdy neobvyklým požadavkům svých zákazníků a plně tak uspokojovat veškeré jejich priority.

Gold Crystal carries on the centuries-old tradition as a Czech crystal glass manufacturer under the common name of Bohemia Crystal. The tradition of many years commits us to make no compromises in terms of product quality or craftsmanship.

The beauty and nobility of the materials used allows our designers to design a great variety of forms, which in turn allows them to present the broad public with a remarkable spectrum of shapes and materials.Their creations receive high appreciation from customers in many countries all over the world, wherever these unique products are distributed.

Over the years of its existence, Gold Crystal has always tried its best to meet the often unusual requirements of all its customers and satisfy their particular priorities.
